SHERLOCK HOLMES — THE UNIVERSAL FAVORITE.

Probably no publisher's announcement of the year will bring more widespread satisfaction than that of McClure Phillips' "The Return of Sherlock Holmes" stories in the middle of February. Sherlock is a more universal favorite, without doubt, than any character ever created in fiction. He belongs to the library, to the kitchen, to the parlor floor, and to the attic. His name and what it stands for has become a part of the English language as thoroughly as Kodak, and it is certainly cherished closer to the heart. There is good reason, then, to believe that the opportunity of having the stories which have been appearing in a weekly magazine throughout two years, in compact book form, with characteristic and impressive illustrations, will be hailed with joy by thousands upon thousands of people, many of whom are not usually considered in the reading class. People will find him the same old Sherlock—only more so; grown with his readers. The tangle of mystery in these thirteen stories is more intricate than ever before, yet the wizard Sherlock, inscrutable and intrepid, unravels the knot with magic deftness. His adventures are, indeed, amazing and blood-stirring. He adds many cubits to the stature of his reputation, and the world will thank Dr. Doyle for his daring act in resurrecting his beloved hero.

STILL BETTER.

Recently we made mention of the good work being done by Prof. Sam'l L. Frogge, late of this city, as President of the Lindsay-Wilson Training School of Vanderbilt University, located at Columbia, Ky.

Since then we have learned that the attendance of the school is 285, exceeding that of last year by 65, and of that number 200 are new pupils. One hundred and twenty of these scholars board in the dormitories and some thirty in private families.

The outlook for the second term is even still better.

Prof. Frogge is a teacher of ability and fine education and possesses the happy faculty of knowing how to impart his knowledge to his pupils.

We wish him every success in his new field of labor.

Famous Southern Tenor and Popular Former Frankfort Boy Comes to Capital Theatre With Faust's Superb Minstrels Monday, February 27.

Judging from the unusual interest that seems to have been aroused in the forthcoming engagement of Faust's Superb Minstrels, which comes to Capital Theatre Monday, February 27, the theatre will hardly accommodate the loyal friends and acquaintances of popular Will Pattie, who claims Frankfort as his home, and whom the metropolitan press has accorded unstinted praise, referring to him as "the celebrated Southern Tenor."

The local lodge of Elks, of whom Mr. Pattie is a member, have arranged to entertain the members of the company after the show Monday evening in his honor, and it is a foregone conclusion that the antlered brethren will turn out in goodly numbers and attend the performance.

There is hardly a man, woman or child in Frankfort and Franklin county that does not know and esteem the friendship of clever and popular Will Pattie, and his friends in the city and county as well will undoubtedly embrace this opportunity to go and hear him sing and incidentally witness one of the finest minstrel shows that has ever visited Frankfort.

Don't fail to see the great parade at noon and hear the "Twilight Concert" at 7 o'clock in front of the theatre.

Don't delay another moment, but go to Barrett's or telephone your request for seats, as the house will undoubtedly be sold out. We noon Monday. Prices, entire lower floor, \$1.00; first two rows in balcony, 75 cents; balance balcony, 50 cents; gallery, 25 cents.

Mr. B. R. Jones and wife have moved to Lexington to reside.

We had a unique preacher in our town Sunday night. He preached on "Fishing," at the Baptist Church. He is the Rev. J. W. Rowley, who styles himself "the highway and byway preacher."

The ladies Missionary Society of the Baptist Church gave a pleasant and profitable entertainment at the City Hall on Wednesday night, February 22.

Mr. W. B. Perry, aged 68 years, died very suddenly, on February 15, while engaged in feeding his stock in his barn. It is supposed that heart disease carried him off, as he was found lying on the barn floor on his face.

THAT TICKLING IN THE THROAT.

One minute after taking One Minute Cough Cure that tickling in the throat is gone. It acts in the throat—not the stomach. Harmless—good for children. A. L. Spofford, postmaster at Chester, Mich., says: "Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. Three doses of One Minute Cough Cure, half an hour apart, speedily cured her. I can not praise One Minute Cough Cure too much for what it has done in our family." It always gives relief. Sold by J. TO THE TOBACCO RAISERS OF KENTUCKY.

Carlisle, Ky., Feb. 10, 1905.
Editor Mercury:

I see that you are interested in the tobacco raisers of the State, which will ever redound to your credit.

I beg of you a short space in your paper while I give to the farmers of Kentucky a few suggestions.

You truthfully said last week that the moneyed men of the East were the masters of the situation. Let me suggest a remedy for this—and nothing is simpler: Let a time be fixed, say March 1, 1905, for a convention to be held at Mayville, Ky., composed of one member from each county in Kentucky, Tennessee, Virginia, North and South Carolina, and there then form a corporation, composed of a President, to be elected by the delegates, and said members from said States be the directors, the main object of which is to manufacture all of the tobacco grown in said States, and let that be the capital.

■ The farmers of said States ought to buy their wheat, corn, oats, cattle, hogs and sheep from

Deadly

Grasp of Grip Prostrated Me.

Dr. Miles' Nervine Built Up My

Shattered Nerves and Gave Me an Appetite.

Of the millions of people, who today suffer from nervous or heart weakness, a large percentage trace the cause directly to deadly LaGrippe. It is a generic disease, and makes a man attack the nerves, putting an extra strain upon them at the time their vitality is at the lowest ebb. If LaGrippe has left you with a shattered nervous system, loss of appetite, lack of energy, insomnia, frequent headaches and morbid tendencies, you should strengthen the system and nerves with Dr. Miles' Nervine. It will cure grip, bring back appetite, rest and restore the nerves to their normal activity.

"I want to write this testimonial for the benefit of those who have suffered from that disease. I had grippe, and suffered for several weeks with it, and nothing I tried seemed to benefit me in any way, shape or form (I suffered almost death). Then I met Dr. Miles' Nervine. I insist on having it and will take no other. It is simply splendid. Hoping this will help others."—Dr. William H. Miller, Geauga, Ohio, practicing. "From all druggists sell and guarantee first bottle Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind."

other States and turn their attention to the raising of tobacco—the reason of this is that you can buy cheaper than you can raise it.

Tobacco is King and these States can control the market of the world if they will simply follow out this plan.

OBITUARY.

On Saturday morning, February 11, death's angel again visited us and took from us our dear grandmother, Mrs. Sarah A. Your, the result of the infirmities of age. She was eighty-one years old and has been a dear, affectionate wife, faithful mother, true sister and loving grandmother. She was taken with a cold while on a visit to her daughter's in Frankfort, and was not able to be moved home. She has, for the last ten years, made her home with her daughter, Mrs. J. V. Crane. It seems that trouble for this family is growing. Only four months ago Mrs. Crane's only son was taken from her arms and now she must give up her faithful mother, who has clung to her in all her trials and troubles. She was a devout lady, a member of the Southern Presbyterian Church. She was beloved by all of her acquaintances. She leaves six daughters, one son, four sisters, one brother and a host of grandchildren and friends to mourn her untimely death.

The remains were laid to rest in the Frankfort cemetery.

We miss thee from our home,

Granny,

We miss thee from thy place, a shadow o'er our life is cast,

We miss the sunshine of thy face,

We miss thy kind and willing hand,

Thy fond and earnest care,

Our home is dark, Granny,

We miss thee everywhere.

THE CAPITOL.

Oh! Capitol, a vexing question hast thou been!
And for place, much legislation hast thou seen.
Almost, since the first assembly was convened,
To change you, by some, it best was deemed.

Until, it was settled by assembly of ninety-four.
Which left it on the old ground,
And to the commissioners they did declare,
That they must build the new house, only there.

They sought o'er the land, every-where,
Until they found a plan, so large,
They could not get it on the square,
Thus have they fulfilled their charge.

And then the gubernatorial chair,
To call another assembly, did de-clare,
To find a piece of other ground,
(To be continued some other time.)

AMIGO.

February 5, 1905.

REUNION KENTUCKY UNI-VER-SITY.

One of the most important movements in the history of Kentucky University was inaugurated Thursday night when it was decided to have a reunion of all old students, alumni and others, during commencement week in June.

The matter was discussed and decided upon at a meeting held at the residence of President Burris A. Jenkins, at which there were present Prof. T. B. McCartney, Prof. A. R. Milligan, Prof. Henry Lloyd, J. W. Porter, Enoch Green, President B. A. Jenkins, B. H. Calhoun, Prof. Milton Elliott and Judge Mat Walton.

The former students of Kentucky University, the direct successor of the oldest educational institution west of the Allegheny Mountains, are scattered all over the world, and the reunion planned is upon a scale of such magnitude that nothing like it has ever been seen in the South. A committee will be appointed to communicate at once with prominent K. U. students in all parts of the country. State reunion committees will be organized and each State organization will work towards the end of interesting all University students in that State to come to the reunion. Fully three thousand people are expected.

BIG OUTDOOR DINNER.

The feature of the reunion will be a dinner held on the lawn at Gratz Park. Four prominent men will make addresses, among whom will be Rev. E. L. Powell, of Louisville.

Arrangements will also be made for the entertainment of visitors. Hundreds will be entertained as guests in the various homes of the city, while others will be taken care of at the hotels.

No definite arrangement has yet been made as to the details of this great undertaking, but it is the plan to have a compact and complete working organization. The presence here of three thousand former students will be of untold value to Lexington and the day will be an important one in the history of Kentucky University, as well as that of the city itself, as the old students to be thus brought together are men of distinction, occupying positions of trust, honor and influence in every walk of life, professional and private.

It is the desire of the organization to see the names of old students of the college in every State and country where they are known to be scattered, and those whose memory serve them correctly enough to recall such names and addresses are requested to communicate them. At present President Jenkins will be pleased to receive and take charge of such communications.

PUBLIC IS AROUSED.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 540 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed by all druggists. Price 50c.

"DO IT TO-DAY."

The time-worn injunction, "Never put off 'till to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day!" That is the terse ad vice you can give your children,攻克 cough or neutralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boscov's German Syrup, which has been in use for thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your trouble, even if it has consumed your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists. 19-24t.

CASE AFTER CASE.

Plenty More Proof Like This in Frankfort.

Scores of Frankfort people can tell you about Doan's Kidney Pills. Many a "happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

L. G. Choate, proprietor of the Frankfort Planing Mill, residing at 420 St. Clair St., says: "In almost constant misery during the day and restless and sleepless at night from the dull aching across the small of my back and through the kidneys expresses my condition for some years. I also suffered a great deal from headaches and spells of dizziness, and often when I arose I was almost blind for a time. There was a difficulty with the kidney secretions which very frequently were very annoying and distressing. I doctorred and used lots of medicine obtaining little or no benefit until Doan's Kidney Pills were so persistently recommended to me by a friend that I went to J. W. Gayle's drug store and got a box. I took them as directed and must say they helped me a great deal. My back feels better and stronger. I can rest better at night and the trouble with the kidney secretions was much relieved. As the result of Doan's Kidney Pills my condition is so much improved that I feel like a new man."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A TOUCHING STORY

Is the saving from death, of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all druggists; 50c and \$1.00 guaranteed. ROMEO AND JULIET.

Sinnville's scenic and electric production of the immortal Bard's most beloved and popular play will be given in its entirety at Capital Theatre Thursday evening, March 2.

The plays of Shakespeare are the most widely read literary productions that have ever been written in the English tongue, or in any other tongue, the Bible alone excepted. If it were possible to collect a copy of each of the various editions that have been printed since Shakespeare's time, a large library could be made of them alone. His plays have been translated into the language of all civilized nations, and they have been printed and circulated in almost every conceivable fashion.

His plays have been enacted in every land that has a stage, by actors of high and low degrees. Even the Japanese have played Romeo and Juliet, and a peculiar Romeo and Juliet it must have been in the land of hari-kari. These facts show the immense popularity of Shakespeare as a literary force, greater probably than that of all other writers combined.

Every college that even pretends to liberal culture has the plays in its course of study. Congressmen quote Shakespeare in their speeches; lawyers repeat his sayings in summing up their cases; divines weave his good and wholesome advice into their sermons.

Many business men and women read Shakespeare after a hard day's work, for relaxation and instruction. The vagrant, arraigned before the magistrate, holds up a well-thumbed volume, and tries to prove that he is respectable because he reads Shakespeare.

Why is Shakespeare every man's author? Why is there not the same interest attached to Johnson, or Marlowe, or the dozen other great writers of Shakespeare's time? Why do we read or see Shakespeare's plays at all?

It is because Shakespeare knew the human heart and soul as no other writer has known them; because he was not only a great writer, correct in form and artistic in expression, but also the greatest philosopher of all ages as well.

Those who are familiar with Shakespeare embrace at all times the opportunity to see any of his immortal plays. To those who are not it is a revelation, so far beyond the petty plays of modern dramatists from any and all points of view that there is no possible chance of comparison.

THE SUNSHINE OF SPRING.

The Salve that cures without a scar is DeWitt's Witch Hazel Salve. Cuts, Burns, Boils, Bruises and Piles disappear before the use of this salve as snow before the sunshine of spring. Miss H. M. A BRIEF HISTORY OF THE KING'S DAUGHTERS HOSPITAL AT FRANKFORT, KY.

Some years ago the ladies of the King's Daughters Circle undertook for their especial work the care of the sick of the community.

The town was distressed, and visiting committees were appointed to go into the homes of the sick to find out what was needed and to supply the needs to the best of their ability.

After two years of such work it was decided the best and most effective way of accomplishing this would be to rent a small house and use it as a hospital.

The work was done, as the Circle had only three hundred (\$300) dollars in the treasury.

A general canvass of the town was made and enough money raised to cover this amount to one thousand (\$1,000) dollars.

A small house was rented at ten (\$10) dollars per month and fitted up with odd pieces of old furniture, except the iron beds, which were purchased from the fund.

In July, 1898, the hospital was opened with a reception to the public.

The work is being carried on in the same building still. At first a nurse and a maid were employed to take charge, they had no professional qualifications for the work, but it was soon found necessary to employ a regular graduate nurse at thirty (\$30) dollars per month, an additional nurse and a maid to gain a little experience before entering a regular training school.

We were able to get such an one for eight (\$8) dollars per month. A cook at \$10 per month and a house maid at eight (\$8) dollars per month.

The hospital can only accommodate seven patients. The one room down stairs is ten (\$10) dollars per week, an upstairs room seven dollars per week, and only one is in use at a time.

For the first year there were only nine patients, and the fund was \$100.

THE ROUNDABOUT'S DEPARTMENT OF LITERATURE, EDUCATION, HISTORY.

An Epoch in History.

History, says a writer, in its simpler form, is but the story of those whose lives exerted so marked an influence upon their times that they should be recorded for the instruction of mankind; and the school child in Franklin county, should be able to understand distinctly the formation of his State and country, also to name the principle events connected therewith, and to be thoroughly conversant with governmental, legislative, judicial and educational data. But is he? Let me speak in the interest of the school children! Moses, the lawgiver, commanded the Israelites to teach the children, and they were thus to grow up in the nurture and admonition of the Lord. The Chinese, though relegated to ranks of heathenism, in our wise estimation, teach their children customs, manners and traditions. The Mexicans and Indians do likewise, the children of these wild, uncivilized tribes being familiar with nature's plan, the trees of the forest, birds' haunts and habits, transgressing the laws of tribal descent, having courage of conviction and race pedigree, and yet we Southern women—whose history far surpasses in its pathos and its tragedy the Iliad of the immortal Greek—are resting secure and content allowing our children to grow up in entire ignorance of Southern literature, States rights, and without any knowledge of the causes for the Civil war.

If we could go into the slums and manufacturing districts of our great American cities we would be astonished and horrified at the swarms of human beings leveled to the plane of animals—a foreign element outside the pale of law—defying man, outraging God—without patriotism and without a country, but these have an influence which shall become a dominant factor in the cycle of another decade. Who, then, shall be "hewers of wood and drawers of water?"

Our children, or theirs?

Ignorance and anarchism vs. patriotism and education is a stupendous question confronting the parents of this enlightened Commonwealth.

"It is related of a patriotic French gentleman that when he sought to impress on a nephew a sense of his duty to his country, the young man turned upon him with the question:

"Uncle, what is my country?"

He replied: "It is the sky above you, the sun that gives you light, the winds that fan your cheek, the recurring seasons—all that combines to make a genial and salubrious climate; it is not alone that earth beneath your feet which is circumscribed by the boundary lines of the kingdom, with its hills and vales, and streams, its forests and fields, but its toiling and directing and achieving millions, and their homes in the districts and the cities; the government that administers the laws and the army and navy that protect you; it is your food and drink and raiment; it is your father and mother who have reared you and made you what you are; it is all who love you; it is the glorious memory of our ancestors—men and women who for two thousand years have been making our beautiful France what she is, the pride of her people and the wonder of the nations. All these, and more, are your country; and the noble soul will hold them sacred in thought and give them lasting love and unshaken allegiance."

Franklin county is distinguished for having the State Capitol, which now promises to be one of the finest in the United States. The county was formed in 1794, and bears the name of the philosopher and statesman, Benjamin Franklin. Frankfort, the seat of justice and the capitol, is picturesquely situated on the Kentucky river, about sixty-six miles above its mouth. It is claimed that its name was attained in consequence of a skirmish that occurred on the spot where the town now stands, between a band of Indians and William Bryant,

Nicholas Tomlin, Ellison Williams, Stephen Frank and others. Frank was killed in the fight, and to perpetuate his memory the place was called Frankfort.

The tall monumental shaft in the beautiful cemetery is well worth notice from an historic view, for the names inscribed upon its surface tell of valor and victories won, but the epoch worthy to be commemorated in the annals of the future historian is this: Commensurate with log and hominy shot and shell, "The first Constitution, adopted in convention at Danville, April 19, 1792, required the General Assembly to meet at Lexington on June 4, 1792, and provided the following mode for fixing the seat of government. The House, during the sessions in 1792, should choose by ballot twenty-one persons, from whom the representatives from Mercer and Fayette counties should alternately strike one, until the twenty-one should be reduced to five, who, or any three of them concurring, should have power to fix on the place for the seat of government, to receive grants from individuals therefor, and to make such conditions with the proprietors of the land as to them should seem right, and should be agreed to by the proprietor, and lay off a town thereon in such manner as they should judge most proper. Accordingly on June 18, 1792, John Allen, and John Edwards of Bourbon county, Robert Todd, of Fayette, Henry Lee, of Mason, and Thomas Kennedy, of Madison, were chosen commissioners. During the summer and fall ensuing, they visited the several points which made proposals—Legerwood Bend, De-laney's Ferry, Petersburg, Louisville, Lexington, Frankfort and Leestown (one mile below Frankfort), canvassed them thoroughly, and on December 5, in session at Lexington, resolved that "Frankfort was the most proper place for the seat of government." John Edwards was absent, two of the board (Robert Todd being one) were in favor of Lexington, and two of Frankfort. Gen Todd, although largely interested as the owner of much land near Lexington, and a resident there, rather than have it said that his judgment was biased by interest, changed his vote and gave to Frankfort the three votes necessary. December 8, the report of the committee was approved by the Legislature and the question settled.

The proposition which induced this location was:

1st. By Andrew Holmes, to convey the government; (a) for seven years the house and tenement lately occupied by Gen. James Wilkinson; (b) absolutely, the lots marked Public Ground Nos. 58, 59, 68, 74, 75, 79, 88 and 84; (c) choice of thirty lots yet unsold, on alternate choice of half of all the unsold (74) lots, and if more space is requisite, will lay off into half-acre lots fifty acres more and convey one-half of them; (d) the rents of warehouses for seven years; (e) ten boxes 10x12 window glass, 1,500 pounds nails, 50 lbs. (\$100) worth of locks and hinges, and an equivalent of stone and scantling for building, all delivered upon the Public Ground, or in place of the latter, stone that will build 1,500 perches of wall in any part of Frankfort, and the use of his saw-mill, carriage wagon, and two good horses until a sufficiency of scantling for a State House is procured, and the privilege of timber from any part of his tract.

2d. The bond, dated August 9, 1792, of eight citizens of Frankfort—Harry Innes, Nat Sanders, Bennett Penberton, Benjamin Craig, Jerry Craig, William Haydon, Daniel James and Giles Samuel—to pay the commissioners \$3,000 in species (gold or silver.)

For innocence of conception, freshness of arrangement, and God-like justice in continuity and sequence, this body of men stand equally with the framers of the declaration of independence.

Let us teach the children this epoch in our State's immortal history, and feel the pride in State and community commensurate with its glory.

"THE IRISH PAWN-BROKERS."

Jae W. Spears, Comedian, presenting that ever popular success, "The Irish Pawnbrokers," is booked for Capital Theatre, Tuesday, February 28. This is its fourth successful season and a brand new fourth edition of the big funnaker is promised, in which a consistent story is told abounding in many amusing complications, and mirth provoking situations. This new edition is the work of that popular young farce writer, Mr. Edgar Selden, whose successes have been many. In the new edition of "The Irish Pawnbrokers" Mr. Selden is said to have done the best work of his career. The company numbers twenty-five people headed by that incomparable trio, Weeley and Mack and Mazie Trumbull, well and favorably known as the farce comedy star trimvirate. They are ably assisted by such clever artists as Carver & Pollard, The Columbian Comedy Four, a quartette of sweet singers, John Clyde, Elmer McConaughy, Winnifred Stewart, Clara Sherwood, Marie Heer, Ida Carney, Chas. H. Doll, Walter Kelly, Chas. Witrock, Frank J. Ahearn and a beauty chorus.

Manager Spears has spared no expense in producing this his fourth edition. An entire new scenic outfit has been provided so that now he carries every stick of scenery used in the production. The costuming is said to be a marvel of the modiste's art. Special attention has also been paid to the musical numbers. Mr. Selden having written several new ones especially for the production. In addition to this all the recent successes will be found.
